

Montanaro UK Smaller Companies Investment Trust

SDR Consumer Facing Disclosure

Date of disclosure: 2nd December 2025

Montanaro Asset Management is the Alternative Investment Fund Manager of the Investment Trust.

No Sustainability Label:

Sustainable investment labels help investors find products that have a specific sustainability goal.

This product does not have a UK sustainable investment label, as the Fund does not have a Sustainability Objective. However, the Fund is in scope of the Naming and Marketing Rule given the integration of Ethical exclusions and ESG across the Fund's holdings.

Sustainability Approach: the key sustainability characteristics of assets in which the Fund will and will not invest

Ethical exclusions & ESG integration:

Ethics:

On ethical grounds, we do not invest in companies that are involved in any of the controversial activities listed on **MAM's "Banned List": Fossil Fuels; Controversial Weapons; Tobacco; Alcohol; Gambling; Pornography; High Interest Rate Lending; Animal Testing (Ex-Healthcare & Regulatory).**

Specifically, we:

- do not invest in companies with any production revenue exposed to these activities;
- apply a 10% revenue threshold for companies providing revenue-generating products or services linked to the Banned List.

Screening:

Given the improving availability of ESG data, we have developed an **"ESG Screen"** that enables us to rank the Small & MidCap investment universe based on certain ESG criteria at both a Global and a European level. The screen utilises 10 ESG data criteria, weighted according to their importance, to generate a **"MAM ESG Screen Rating"** – ranging from AAA (best) to D (worst).

ESG factors we consider in the screen: **Ethics** – Permissible Sector; **Environmental** – Carbon Intensity Scope 1 & 2; Water Intensity (vs Sales); Waste Intensity (vs Sales); **Social** – Anti-Bribery Ethics Policy; % of Women in Workforce; **Governance** - % of Women on the Board; % Independent Directors; **General** – MSCI Weighted Average Score; ESG Disclosure Score.

In exceptional circumstances, we may consider that continuing to analyse and invest in a "D" rated company is warranted. A "D" rated company may be considered for investment so long as it meets the minimum requirements as set out in MAM's "ESG Checklist". All such cases must be approved by Montanaro's Sustainability Committee.

ESG Checklist:

Once this screening process is complete, Analysts then begin the fundamental parts of Montanaro's Investment process. ESG consideration forms part of our definition of a company's overall **"Quality"** and is fully embedded into our investment process. For a company to be deemed Quality, it must meet the standards set out in our Ethical and ESG Policies. These policies have guided the creation of our proprietary **"ESG Checklist"**, which is completed by our Analysts/ESG & Impact Specialist during the research process. This ensures that every investment aligns with our ethical standards and ESG principles.

Our policies allow us to select the highest quality companies by identifying the ethical, environmental, social and governance factors we need to consider from an opportunity, strength, weakness and risk perspective. The areas that we focus on are influenced by and support the UN Global Compact.

Sustainability Metrics:

ESG Scoring: The ESG Checklist has been designed with a data scoring element, and an analyst scoring element. We assess and score companies out of 10 (10 is best) based on their Environmental, Social or Governance profile. The data section draws on 80 data points. In this, we compare company data to a global benchmark (MSCI SMidCap), our Approved List (companies that we can invest in across our portfolios) and a relevant peer group. In the Analyst section, the Analysts/ESG & Impact Specialist scores companies based on their own research and informed opinion, keeping to internally generated ESG Scoring Guidelines to ensure consistency across the scores. This results in a “MAM ESG Score”. Companies with scores of less than 5 require engagement as a material point(s) of weakness has been identified.

ESG Aim: Our approach helps to drive more accurate risk analysis, helping us to invest in those businesses capable and willing to manage their ESG credentials in a changing world. We engage with companies on prominent issues to better understand their approach; improve areas of weakness; and encourage higher levels of data disclosure and reporting.

Below we list the factors considered in our ESG checklist.

Environmental:

Climate targets: Net Zero (interim and final); Science Based Targets Initiative (SBTi)

Carbon Emissions: Absolute; Intensity and trajectory for Scope 1 & 2; Absolute Scope 3; Use of renewable energy; Carbon intensity of supply chain

Water: Policy; Water intensity

Waste: Policy; Waste intensity of operations (including toxic emissions and packaging waste)

Biodiversity: Policy; Exposure to operations with highly fragile ecosystems & with land or ecosystem disturbance

Social:

Diversity: Women in workforce & management; Diversity and discrimination controversies; Gender pay gap reporting

Labour practices: Health and Safety (policy, injury rate, annual fatalities); Management of supply chain; Controversies in human rights and supply chain labour; Annual employee turnover

Policies: Human Rights; Child Labour; Diversity; Equal Opportunity; Bribery and Anti-corruption; Business Ethics; Consumer Data Protection

Tax gap

Governance:

Board composition: Chair (independence; whether combined with CEO); CEO gender (not scored); Board (independence; % women; average tenure of independent directors; significant votes against directors)

Insider ownership: CEO equity (changes; multiple of salary); Remuneration (CEO total pay USD; whether in extreme range; non-equity bonus paid; CEO-to-employee ratio); Pay (link to sustainability; say on pay policy; significant votes against pay)

Committees: Remuneration (including % independent directors); Audit (including % independent directors; financial expert present; tenure of auditor); Nomination

Ethics: Business ethics; Controversies
