#### Review

The best equity returns were to be found in LargeCap during the opening half of 2024. SmallCap underperformed its larger peer by a staggering 12% over the last 6 months, while MidCap did not fare much better. This marked the worst half-year underperformance for Global SMidCap for over a quarter of a century. Unless this reverses, the asset class will deliver a record 7th consecutive year of underperformance versus LargeCap.

What was behind this dramatic divergence? Conditions in the equity markets continued to be dominated by two main themes: stickier-than-expected inflation and the ongoing domination of large technology stocks in the US. In both the US and parts of Europe, stubborn services inflation led certain Central Banks to delay interest rate cuts. This had a negative impact on smaller companies which are more interest rate sensitive compared to their larger peers.

LargeCap technology stocks – and in particular anything “A.I” related – performed strongly. Nvidia, which on its own is worth roughly the same as the entire Russell 2000, continued its heady triple-digit ascent (although the Magnificent Seven did begin to show some signs of bifurcation).

Towards the end of the second quarter, political upheaval weighed on most parts of the equity markets. The UK faced an election and a change of government, while in France a snap election was called by Emmanuel Macron, which raised market volatility. In the US, the election bandwagons began to roll.

**INVESTMENT MANAGER'S REVIEW**

**Outlook**

At the end of 2023 we suggested that the conditions might be ripening for the “SmallCap Effect” to emerge from its multi-year hibernation. This is yet to happen. How does this set us up for the next six months?

Despite inflation remaining “higher for longer”, there were clear signs of cooling towards the end of June. On a June annualised basis core CPI in the US was below 1%, while the three-month average was only a whisker above 2%. Most reassuringly for Growth investors, such as ourselves, CPI shelter inflation (the average cost of housing in the US) plummeted to 2%. Not so long ago it was above 8%. The market reaction to this data? Futures priced in a 91% probability of a rate cut in September (up from 55%); Treasuries rallied and the yield curve steepened; and the technology behemoths fell (Nvidia by almost 6%), while SmallCap gained.

While one month of data is too little to indicate that we are in “risk on” mode to a large enough extent that SMidCap will catch up on this year’s underperformance anytime soon, it is another indicator that market dominance comes hand-in-hand with concentration risk. Some recent research that we found interesting was published by Bridgewater (The life cycle of market champions): “a consideration for investors today is that most investors’ portfolios have higher exposure than ever to the current champions [the large tech stocks]... over a third of a typical US-market-weighted portfolio is allocated to the current basket of champions, and in a world portfolio, this share ends up close to 20%—the highest in over 50 years”.

With macro data becoming more supportive of smaller company investing, it is worth ending with a point on valuation. Global SMidCap has never looked as attractive in over 20 years on a relative basis: the asset class is trading on near record P/E and P/Book discounts to LargeCap. With a long-term view, now may be as good a time as any for dipping a toe back into SmallCap waters.

## NOTES TO THE FINANCIAL STATEMENTS

*Financial period ended 30 June 2024*

### 1. Statement of Accounting Policies

#### Principal Accounting Policies

The accounting policies applied are consistent with those of the annual financial statements for the financial year ended 31 December 2023 as described in those financial statements.

#### Basis of Preparation

These condensed interim financial statements (unaudited) for the financial period ended 30 June 2024 have been prepared on a going concern basis in accordance with the provisions of Financial Reporting Standard (“FRS”) 104 the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland issued by the Financial Reporting Council (“FRC”), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the “Central Bank UCITS Regulations”) and the listing rules of Euronext Dublin.

The condensed interim financial statements (unaudited) have been prepared on a historical cost basis, except for financial instruments classified at fair value through profit or loss that have been measured at fair value. The condensed interim financial statements (unaudited) should be read in conjunction with the annual audited financial statements for the financial year ended 31 December 2023 that were prepared in accordance with FRS 102 and Irish statute comprising the Companies Act 2014, the UCITS Regulations, the Central Bank UCITS Regulations and the listing rules of Euronext Dublin.

The Company has availed of the exemption available to open-ended investment funds under Section 7 “Statement of Cash Flows” of FRS 102, not to prepare a cash flow statement on the basis that substantially all of the Company’s investments are highly liquid and carried at fair value, and the Company provides a Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. Under FRS 104, as the Company, in accordance with this FRS 102 exemption, has not presented a cash flow statement for its annual audited financial statements, there is a conditional exemption from the preparation of a cash flow statement for the condensed interim financial statements.

### 2. Fees

#### Management Fee

Waystone Management Company (IE) Limited (the “Manager”), as per the agreement signed on 1 October 2021 between the Company and the Manager (the “Management Agreement”), shall be entitled to receive out of the assets of the Funds an annual fee in respect of such Fund or Funds or in respect of each Class of any such Fund, accrued daily, calculated monthly and payable monthly in arrears of up to and not exceeding 0.01% of the Net Asset Value of such Fund or Class as set out in the relevant Supplement. The fee payable to the Manager is subject to a minimum fee of €50,000 per annum based on a single Fund and €10,000 per annum per each additional Fund. The Manager shall be entitled to be reimbursed by the Company for reasonable out of pocket and marketing expenses incurred by it. Each Fund will bear its proportion of the fees and expenses of the Manager. Management fees charged during the financial period ended 30 June 2024 were €53,615 (30 June 2023: €46,586).

### NOTES TO THE FINANCIAL STATEMENTS (continued)

#### *Financial period ended 30 June 2024*

#### **2. Fees (continued)**

##### *Investment Management Fee (continued)*

The Investment Manager earned an Investment Management fee of €6,482,258 for the financial period ended 30 June 2024 (30 June 2023: €8,865,516).

##### *Performance Fees*

The Investment Manager (with the exception of the Euro Institutional Accumulation Class of the Montanaro European Smaller Companies Fund, all Classes of the Montanaro UK Income Fund, all Classes of the Montanaro European Income Fund, the Euro Accumulation B Class and Sterling Accumulation B Class of the Montanaro Global Innovation Fund, all Classes of the Montanaro Better World Fund and all Classes of the Montanaro Global Select Fund) may be entitled to receive an annual performance-related fee based on the outperformance per Share over the return on the benchmark in the relevant currency of the Share Class. The Performance fee payable will be 20%\* (plus VAT, if any) of the amount by which the increase in the NAV per Share, having adjusted the closing NAV per Share by (i) adding back the impact of any accruing Performance fee, and (ii) adding back and compounding at the rate of return of the NAV of the Share Class any dividends paid or payable by reference to the financial period in question, exceeds the higher of High Water Mark or the return on the benchmark plus 3 percentage points (plus 3 percentage points not applicable for the Montanaro Global Innovation Fund) over the relevant financial period. It will be calculated based on the time weighted average number of Shares in issue during the relevant period.

\* The Performance fee charged to Euro Accumulation A Class and Sterling Accumulation A Class of the Montanaro Global Innovation Fund is 10% of outperformance.

A Performance fee will only be payable in respect of any financial period if the closing NAV per Share of the relevant Class at the end of the period (adjusted for the matters described above) exceeds the higher of (a) the opening NAV per Share of that Class for the relevant period or the price at which such Shares were issued if the initial issue of the relevant Class of Shares occurred during the Performance Fee Period; and (b) the closing NAV per Share of that Class on the last Performance Fee Period end when a Performance fee was paid (if any).

There were €Nil performance fees incurred by the Funds of the Company during the financial period ended 30 June 2024 (30 June 2023: €Nil).

##### *Administration and Depositary Fees*

The Company has entered into an administration agreement with BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") under which the Administrator receives an Administration fee. The Administration fee accrues daily and is paid monthly in arrears. The Administration fee was €416,317 for the financial period ended 30 June 2024 (30 June 2023: €493,616).

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary"), is paid an annual fee accruing daily and paid monthly in arrears. The Depositary fee was €145,521 for the financial period ended 30 June 2024 (30 June 2023: €189,649).

The aggregate of the Administration and Depositary fee shall not exceed 0.25% of the NAV of each Fund.

##### *Directors' Fees*

Each of the Directors who are not Directors, officers or employees of the Investment Manager and Promoter or any affiliate thereof shall be entitled to such remuneration for his or her services as the Directors may determine provided that the aggregate emoluments of all Directors in respect of any twelve month period shall not exceed £120,000 plus out of pocket expenses, or such higher amount as may be approved by the Company in a general meeting. The Directors' fees were €31,244 for the financial period ended 30 June 2024 (30 June 2023: €31,336).

#### *Financial period ended 30 June 2024*

#### 5. Related Party Transactions (continued)

The following entities are related parties, by virtue of the fact that each have the same ultimate parent group, Montanaro Asset Management Limited, which held Shares in the Company as follows:

	30 June 2024	31 December 2023	30 June 2023
Montanaro Asset Management Limited	14,343,299	14,015,294	8,510,923
Montanaro Growth & Income Fund Limited Partnership No. 3	12,016,544	12,016,544	12,016,544

The Investment Manager has the discretion to waive some or all of its “Investment Management Fee” on certain Share Classes and information concerning the various waivers in place for the reporting period are disclosed in Note 2. As at 30 June 2024 and 31 December 2023 there were 7 Subscriber Shares of €1 each in issue (being the minimum share capital of the Company) held by the Investment Manager.

Regulation 43 of the Central Bank UCITS Regulations “Restrictions of transactions with connected persons” states that “A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm’s length; and b) in the best interest of the unitholders of the UCITS”.

As required under Central Bank UCITS Regulation 81(4), the directors of the Company, as the responsible person, are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with a connected person; and all transactions with a connected person that were entered into during the financial period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

#### 6. Risks Associated with Financial Instruments

##### *Fair Value Estimation*

Under FRS 102, the Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 The unadjusted traded price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than traded prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The best evidence of fair value is a traded price for an identical asset or liability in an active market and is therefore classified within Level 1. These include actively traded equities, exchange traded derivatives and other traded securities. Traded in an active market in this context means traded prices are readily and regularly available and those prices represent actual and regularly occurring market transactions on an arm’s length basis.

When traded prices are unavailable, the price of a recent transaction for an identical asset or liability provides evidence of fair value and is classified within Level 2, as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. These include money market instruments, certain traded equities and open-ended collective investment schemes. If the Company can demonstrate that the last transaction price is not a good estimate of fair value (e.g. because it reflects the amount that an entity would receive or pay in a forced transaction, involuntary liquidation or distress sale), then that price is adjusted.

If the market for the asset or liability is not active and recent transactions of an identical asset or liability on their own are not a good estimate of fair value, the Company estimates the fair value by using a valuation technique and classifies the asset or liability within Level 3. These include investment-grade government and corporate bonds, over-the-counter derivatives, private equity and corporate debt securities. The objective of using a valuation technique is to estimate what the transaction price would have been on the measurement date in an arm’s length exchange motivated by normal business considerations. Valuation techniques include using recent arm’s length market transactions for an identical asset or liability between knowledgeable, willing parties, if available, reference to the current fair value of another asset or liability that is substantially the same as the asset or liability being measured, discounted cash flow analysis and option pricing model.

#### **6. Risks Associated with Financial Instruments (continued)**

##### *Fair Value Estimation (continued)*

If there is a valuation technique commonly used by market participants to price the asset or liability and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the Company uses that technique.

The Company's investments values are based on traded market prices in active markets and therefore all of the Company's investments were classified as Level 1 at 30 June 2024 and 31 December 2023. There were no transfers between levels during the financial period (31 December 2023: Nil). The Company does not hold any investments classified within Level 2 or Level 3. The fair value levels of the securities held by the Funds are monitored on a monthly basis by the Investment Manager. There were no financial liabilities held at 30 June 2024 and 31 December 2023.

#### **7. Soft Commission Arrangements**

No soft commission arrangements were entered into during the financial period ended 30 June 2024, the financial year ended 31 December 2023 or the financial period ended 30 June 2023.

#### **8. Efficient Portfolio Management**

The Company may, on behalf of a Fund, use techniques and instruments for the purposes of efficient portfolio management (including but not limited to forward foreign currency contracts, futures contracts, options, put and call options on securities, indices and currencies, stock index contracts, swap contracts) subject to the restrictions and limitations laid down by the Central Bank. The Company may engage in such techniques and instruments for the reduction of risk, cost or the generation of additional capital or income for a Fund with an appropriate level of risk, taking into account the risk profile of the Company as described in the Prospectus and the general provisions of the UCITS Regulations.

The Company may employ techniques and instruments relating to transferable securities provided that such techniques and instruments are used for efficient portfolio management purposes and techniques and instruments intended to provide protection against exchange rate risk and equity market risk. Where applicable, the entities to which direct and indirect operational costs and/or fees have been paid during the annual period to the relevant accounting year end of a Fund will be disclosed in the annual report for such period.

The prices of derivative instruments, including futures and options prices, are highly volatile. Price movements of forward foreign currency contracts, futures contracts and other derivative contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and policies of governments, and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly markets in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations.

The use of such techniques and instruments for efficient portfolio management involves certain special risks including: a dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates, imperfect correlations between the hedging instruments and the securities or market sectors being hedged, the fact that skills needed to use these instruments are different from those needed to select the Company's securities, the possible absence of a liquid market for any particular instrument at any particular time and possible impediments to effective portfolio management such as the ability to meet redemption requests or other short term obligations because of the percentage of the Company's assets being segregated to cover its obligations.

The Company does not currently use financial derivative instruments and it is not the current intention of the Investment Manager to employ efficient portfolio management techniques. A risk management process will be submitted to the Central Bank in accordance with the Central Bank's requirements prior to the Company engaging in financial derivative transactions on behalf of a Fund.

The Company did not enter into any derivative contracts during the financial period ended 30 June 2024, the financial year ended 31 December 2023 or the financial period ended 30 June 2023 for efficient portfolio management or any other purpose.

### NOTES TO THE FINANCIAL STATEMENTS (continued)

*Financial period ended 30 June 2024*

#### **9. Share Capital and Redeemable Participating Shares**

The authorised share capital of the Company is 1,000,000,000 redeemable participating Shares of no par value. The redeemable participating Shares issued by the Company are freely transferable and are entitled to participate equally in the profits and dividends of the relevant Fund and its assets upon liquidation. The redeemable participating Shares, which are of no par value and which must be fully paid up on issue, carry no preferential or pre-emptive rights. Holders of redeemable participating Shares are entitled on a poll to one vote at general meetings of the Company in respect of each redeemable participating Share held.

##### **Subscriber Shares**

The Company has authorised share capital of €38,100 (divided into 38,100 Subscriber Shares of one Euro each). As at 30 June 2024 and 31 December 2023 there were 7 Subscriber Shares of €1 each in issue (being the minimum share capital of the Company) held by the Investment Manager. Subscriber Shares do not entitle the holders to any dividend and on a winding-up entitle the holder to receive the amount paid thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of redeemable participating Shareholders' Funds. They are thus disclosed by way of this note only. In the opinion of the Directors, this disclosure reflects the nature of the Company's business as an investment fund.

##### **Redemption of Shares**

Shareholders may redeem their Shares on and with effect from any dealing day at the NAV per Share calculated on or with respect to the relevant dealing day in accordance with the procedures specified in the relevant Supplement (save during any period when the calculation of NAV is suspended). If the redemption of part only of a Shareholder's shareholding would leave the Shareholder holding less than the Minimum Holding for the relevant Fund, the Directors or their delegates may, if they think fit, redeem the whole of that Shareholder's holding.

In the event that the net distributable income generated by the Montanaro UK Income Fund and by the Montanaro European Income Fund during the relevant financial period and attributable to the relevant Class is insufficient to pay a distribution which is declared, the Directors may at their discretion determine such dividends may be paid from the capital of the Fund. Shareholders should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount originally invested or capital gains attributable to and may result in an immediate decrease in the value of the Shares of the relevant Class and will reduce any capital appreciation for the Shareholders of such Class.

##### **Share Classes**

Shares will be issued to investors as Shares of a Class in the Funds. The Directors may, whether on the establishment of each Fund or from time to time, with prior notification to, and clearance by the Central Bank, create more than one Class of Shares in each of the Funds. The Directors may, in their absolute discretion, differentiate between Classes of Shares, without limitation, as to currency denomination of a particular Class, dividend policy, hedging strategies if any applied to the designated currency of particular Classes, fees and expenses or the minimum subscription or minimum holding applicable.

Where the amount subscribed for Shares is not equivalent to an exact number of Shares, fractions of Shares may be issued to the nearest one thousandth of a Share. The holder of a fraction of a Share may not exercise any voting right in respect of such Share.

#### **11. Taxation**

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not liable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders, any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each eight year period beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Fund; and
- (b) certain exempted Irish tax resident Shareholders who have provided the Fund with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Fund or its Shareholders.
