<b>Waste Intensity</b>	n/a
<b>Fund ESG Score*</b>	n/a

\*The Fund ESG Score is the weighted average of Montanaro's proprietary company ESG Checklist scores (0-10; 10 is best).

## Risk & Reward Profile

• This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of a fund's volatility. As the fund has less than 5 years price history, this calculation incorporates the volatility of an appropriate benchmark index. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains.

• The fund has been classed as 5 because its volatility has been measured as above average.

• This indicator is based on historical data and may not be a reliable indication of the future risk profile of this fund.

• The risk and reward profile shown is not guaranteed to remain the same and may shift over time. Number 1 on the scale does not mean that a fund is risk free.

## Important Information

Past performance is not a reliable indicator of future results. All investments are subject to risk and the value of shares and the income from them can fall as well as rise due to stock market and currency movements. You may not get back as much as you originally invested.

For further information please see the Prospectus and Key Investor Information Document (KIID) available on the Link website ([www.linkfundsolutions.co.uk](http://www.linkfundsolutions.co.uk)).
