Fund Objective

To outperform its Benchmark, the MSCI World SMID Cap (Total Return) Index (the "Benchmark"). The Fund will seek to invest at least 60% of its assets in high quality, well-managed small and midcap companies, including Real Estate Investment Trusts ("REITs"), incorporated or domiciled in Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Iceland, Ireland, Israel, Italy, Japan, Luxembourg, Malta, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, Taiwan, United Kingdom and United States, listed or traded on an exchange in the aforementioned countries and whose market capitalisation does not exceed that of the largest unadjusted market capitalisation of any of the constituents of the Benchmark at the time of initial investment.

The Fund will be actively managed with a medium term (five years) investment horizon, utilising a bottom-up investment philosophy and a low turnover, buy and hold strategy. The Fund will seek to create a concentrated portfolio of approximately 30 reasonably valued, high-quality companies.

Risk & Reward Profile

€ A Accumulation Class

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment.

This risk rating is based on historical data which may not be a reliable indication of the future risks and rewards of the fund. The risk rating of the fund may change over time.

Past performance is not a reliable indicator of future results. All investments are subject to risk and the value of shares and the income from them can fall as well as rise due to stock market and currency movements. You may not get back as much as you originally invested.

For further information please see the What are the Risks section of the Key Information Document (KID).
